

KENT ADRIAN SATO

SENIOR FULL STACK ENGINEER | SYSTEMS ARCHITECT

adriankentsato@gmail.com | Cebu, PH
linkedin.com/in/adriankentsato | github.com/adriankentsato

PROFESSIONAL SUMMARY

Senior Full Stack Engineer & Systems Architect with 8 years of experience designing scalable enterprise platforms, leading cloud migrations, and managing global development teams. Proven track record of modernizing legacy systems, including architecting high-concurrency AWS serverless environments and containerized microservices from the ground up. Combines deep technical expertise in modern JavaScript ecosystems (Node.js/Angular) with a strong command of engineering operations, mentoring cross-functional teams to accelerate delivery and optimize system performance.

TECHNICAL SKILLS

- ✓ **Architecture & Methodologies:** Systems Integration, Technical Architecture, DevOps, Agile/Scrum, CI/CD pipelines, Risk Assessment & Mitigation, SDLC Management
- ✓ **Languages:** JavaScript/Typescript, HTML, CSS, PHP, Java, C/C++/C#, Bash
- ✓ **Backend Environments:** Node.js, REST APIs, GraphQL, Symfony, JSP, Kafka
- ✓ **Frontend Frameworks:** Angular, React, jQuery, Bootstrap, Material UI
- ✓ **Cloud & DevOps Infrastructure:** AWS (Lambda, IAM, CloudWatch, EC2, SES, Cognito), Docker, Vagrant, VirtualBox, GitHub Actions, Nginx, Apache Server, Apache Tomcat, Containerized Applications (ECS, ECR)
- ✓ **Databases & Caching:** PostgreSQL, MySQL, Redis
- ✓ **Testing Frameworks:** Jest, Karma, Jasmine, playwright
- ✓ **Tools & Ecosystem:** Git, GitHub, GitLab, Bitbucket, Postman, Apidog, JIRA, Airtable, Confluence, Zoho, OAuth, JWT, Windows, MacOS, Linux

PROFESSIONAL EXPERIENCE

Radiant Logistics, Inc. | Cebu, PH | Renton, WA

Senior Full Stack Engineer | March 2023—Present

- Architected and executed a complete system migration from legacy PHP/MuleSoft to AWS Lambda and containerized applications environment using Node.js, engineering a scalable and stable architecture that securely supports 1,000+ users and achieving zero downtime with absolute data integrity throughout the transition.
- Led and mentored a team of three developers through structured code reviews and technical guidance, establishing development best practices that cultivated a culture of continuous improvement and high code quality.
- Designed and deployed comprehensive onboarding SOPs, robust technical documentation, and shared code libraries for API integrations, slashed new developer onboarding ramp-up time by 60%.

- Leveraged AI-assisted development tools and LLMs to accelerate code generation, optimize complex queries and processes, and automate unit test creation, significantly increasing sprint velocity within Agile cycles.
- Collaborated closely with international, cross-functional teams – including US and PH based engineers, QA, DevOps, UI/UX Designers, and the VP of Technology – within a 2-week Agile sprint cycle to ensure aligned development and on-schedule product delivery.

Above Digital (prev. Our Global Team, Inc.) | Cebu, PH | Queensland, AU

Senior Software Developer | March 2021 – March 2023

- Led a team of six developers through structured code reviews and technical mentorship, embedding engineering best practices and building a culture of continuous improvement.
- Engineered a scalable system architecture supporting 100+ concurrent users with 99.9% uptime, successfully automating manual business processes by 75%.
- Managed the full Agile SDLC from initial requirements analysis and system design through to implementation, testing and product deployment.

Junior/Mid-Level Software Developer | October 2018 – March 2021

- Established the core architectural foundation and development frameworks for a large-scale end-to-end ERP solution, successfully launching comprehensive modules across finance, inventory, and customer management.
- Programmed and launched complex enterprise modules spanning finance, inventory, and customer management from the ground up.
- Earned promotion to Senior Developer ahead of schedule by consistently scaling responsibilities and demonstrating strong ownership of the core system codebase.

Freelance Work | Cebu, PH

Web Developer & Digital Services Provider | February 2017 – October 2018

- Built custom WordPress websites for local small businesses and entrepreneurs, developing bespoke themes and integrating third-party plugins to meet client specifications
- Provided versatile technical and digital support for 5+ clients, handling administrative workflows, data management, and creating marketing graphic assets using Adobe Creative Suite.
- Managed end-to-end freelance operations including client communication, project scoping, timeline estimation, and invoicing while maintaining a 95% client satisfaction rate.

EDUCATION

Cebu Institute of Technology – University | Cebu, PH

Bachelor of Science in Computer Engineering | Graduated: October 2018
